Experience

Graphic Designer | Feeding San Francisco, University of San Francisco

March 2026– Present

- Develop branding system, created logos, chose typography, and color palette to create a cohesive identity
- Design assets and graphics for digital and physical media, including social media posts, marketing, packaging, merchandise, and print
- Coordinate production orders to deliver needed physical assets for campus events
- Attend meetings with program coordinator and social media team to give and receive feedback

UX and Web Designer | Entrepreneurship and Innovation Hub, University of San Francisco

August–December 2025

- Conducted surveys of over 100+ USF students to learn more about their thoughts on entrepreneurship and innovation
- Presented work to groups of 10-20 students, faculty, and project stakeholders to receive and incorporate user feedback
- Designed 6 web pages using Drupal for the school's website while staying within USF brand guidelines
- Performed website usability testing on 5 students to improve user flow
- Redesigned and added pages to USF's professional networking platform

Notable Projects

Graphic Designer | In the Clouds

March–April 2026

- Illustrated and printed a nature inspiration card deck of 15 cards about the environmental impacts of artificial intelligence
- Wrote copy text of inspiration prompts and informative paragraphs designed to educate about the environment
- Designed and crafted a card box to ensure protection and portability

Brand and Packaging Designer | Dontchuu

January–March 2026

- Conceptualized and executed innovative packaging designs for a line of scented nail polish product for nail biters
- Presented multiple presentations of various brand concepts to receive and incorporate feedback
- Created merchandise, marketing, mobile, and desktop website mock-ups to expand brand identity beyond packaging
